China is a modern country, so you need not feel as though you are preparing to travel back in time, to a less sophisticated society. For example, you will find very few ATM machines, but travelers' checks and credit cards are accepted everywhere, so leave your checkbooks and check cards behind. The electricity in China is 220 volts and an adapter is required to operate even an American hair dryer. Both the adapter and the hair dryer are available at the hotels in which we will be staying, but it is recommended that you bring your own adapter if you will need to plug anything in. Though you will be treated to sumptuous regional foods, you will also find many American fast-food chains including McDonalds, KFC and Starbucks.

Please read-----The latest new request by Chinese Consulate: They require for your real passport, even we just apply for a group visa!!!

Dear Chamber Trip Planners,

As you know, started from December 2017, Chinese Consulate adopted their new procedure of individual visa application by jurisdiction, Citslinc has to apply with Chinese Consulate General at Los Angeles only for Tourist Group Visa application instead. **Today, the Chinese Consulate announced their new requests, they require the real passport even we just apply for a group visa. So if your group visa application is already under process in our hands, please express mail your real passport to Citslinc by UPS or FedEx to our address at: CITSLINC 108 N. YNEZ AVE., # 205, MONTEREY PARK, CA 91754 (Phone: 626-571-0616)**

Tourist Group Visa is issued for a short period of time to just cover the trip and does not have to be within jurisdiction, and Citslinc can apply for Tourist Group Visa with the U.S. passport as well as Canadian passport (with more than 6 months validity).

Tourist Group Visa will be issued just for a single entry and a stay just to cover for the group travel itinerary. Citslinc will not start Tourist Group Visa with Chinese Consulate until one month before the trip departure day, and mail the Tourist Group Visa by FedEx or UPS to your chamber around 2 weeks before your trip departure day.

It is OK if any passengers already hold a valid individual visa, or prefer to apply for a valid individual visa under own efforts and responsibility.

To make it is easier for those who for some reasons, they do need to obtain an individual visa, but they could not apply for themselves with jurisdiction, Citslinc would like to work with these visa center by jurisdiction, of course we have to add up the cost to pay for those visa center agents, as well as to pay for the reliable express mail. So the new price for individual visa application is at \$255 for regular time of 10 working days, and \$285 for 4 working days expedited service.

Please let me know if you do have any question regarding the visa application procedure change.

Best regard.

Leo Liu, President
Citslinc International, Inc.

Afterwards, tourists will visit local families interviewing their life and cooking Chinese dumplings with the family members. During lunch time, tourists will be served with delicious Chinese domestic dishes and the dumpling tourists make. Arts & Crafts :

Jade Factory (BEIJING)

Jade articles produced in ancient China were used in sacrificial ceremonies, rituals and adornments. With their solid and smooth quality, and lustrous colors, jade products have always been famous for their beauty and style.

In ancient time, jade was only used for personal ornaments. After the middle and later Neolithic age, large jade articles replaced small ones. Large jade article usually symbolizing a certain prestige, began to reflect the ideas of social class system and ancient religions.

In the book of Rites, jade is described as “mild, smooth and lustrous like the virtue of a kind and decent man. It is cut with angles and corners, but will not hurt anyone, like the virtue of a righteous man. A jade ornament worn as a pendant is like benign, modest man of good manners. When it is struck, it gives a clear, resonant and lingering sound which lasts till it comes to a sudden stop, just like the attitude of a man of virtue toward music. The beauty of a piece of jade co-exists with its flaws which are not covered up, like the behavior of a loyal and honest man. It is crystalline and transparent and shiny, like the quality of purity which springs from the bottom of a good man’s heart.”

So the art of jade carving and traditional is most representative respect of Chinese culture, it is subtle to detail, deeply involved in craftsmanship and natural beauty, which shows a unique form of the glorious Chinese civilization.

Pearl (BEIJING)

As early as 4000 years ago, Chinese people discovered a kind of delicate gem with soft brilliance when searching ocean for food. This is pearl. Since then, countless pearl jewelry and artwork have been created by talented Chinese people. Hence, pearl has been one of the important parts of Chinese culture. The first book note of pearl is four thousand years ago in China. And people in China have been collecting, growing, and harvesting pearls for over two thousand years - we have the oldest pearl production tradition anywhere in the world. China was also the first

country to develop cultured pearls, around 1082 A.D. The country is huge, with diverse waterways that provide many different environments for oysters providing kinds of freshwater pearls and salted-water pearls.

Pearls have been harvested and cultivated primarily for use in jewelry, but in the past they were also stitched onto lavish clothing. Pearls have also been crushed and used in cosmetics, medicines, and in paint formulations. Generally, saltwater pearls are higher in quality than freshwater pearls. They often have a smooth, round, regular shape—freshwater pearls tend to be more irregular. Saltwater pearls have a glossy surface with moderate luster. Their color is most often white or light. Because a saltwater oyster can produce only one pearl, while a freshwater mollusk can produce several at once, saltwater pearls are more rare than freshwater—and thus more expensive.

All the processes are full of traditional features and they have exhibited the comfort and magnificence of the traditional silk to the tourists all round the world. Especially the "long-lived" brand silk quilt, which has the advantage of light, soft and warm, is popular with the tourists both at home and abroad.

LanLiyuan Embroidery Research Institute (SUZHOU)

Lan Liyuan Embroidery Research Institute , located at No 518 Huqiu Road, is one of the biggest embroidery research institute in China. Suzhou or "Su" embroidery is one of the oldest embroidery techniques in the world, with origins stretching back more than 2,000 years. Suzhou embroidery was one of the first embroidery styles to be developed in China, but its detailed needlework and intricate images are still produced today. It is a style characterized by brightly colored silk embroidered with well-proportioned and uncluttered representations of almost any pastoral scene, person, animal, or object. Examples of Suzhou embroidery were so detailed and intricate that many people used the pieces as artwork, and some of the oldest pieces still in existence date back hundreds of years.

As a sightseeing village, it has received a lot of distinguished guests from both home and abroad. Today Mei Jiawu's exquisite scenery, unique style and friendly character have firmly placed it on the world map as a representative of Chinese tea culture.
