

WORCESTER

Accelerating Worcester's Young Entrepreneurs

Recruit. Retain. Incubate.

StartUp Worcester

A Partnership Between
Worcester Regional Chamber of Commerce, The Venture Forum,
and Worcester Clean Tech Incubator

OUR MISSION

StartUp Worcester is an important initiative of the Worcester Regional Chamber of Commerce's Higher Education - Business Partnership, The Venture Forum, and Worcester Clean Tech Incubator to launch and to provide support as well as space for the region's young entrepreneurs.

The initiative helps to incubate new businesses and retain the bright young graduates of the area's college and universities. StartUp Worcester encourages entrepreneurs to grow their business here – where they have access to everything they need to succeed.

BENEFITS

In addition to the benefits of membership in Worcester Clean Tech Incubator, and the Chamber, participants will find support through monthly events presented by The Venture Forum. Topics focus on practical information including product launches, marketing, sales, funding sources, building teams and protection of intellectual property and networking events with investors and other service providers, business pitches and other events that support these entrepreneurs. Participants also receive mentors from SCORE, a service of the SBA, with whom they will receive support and guidance.

Each StartUp Worcester membership awarded is valued at more than \$7,000 (Chamber, WCTI shared office and The Venture Forum memberships). Access to resources, network and publicity are invaluable to help companies get to the next level.
