

Sponsorship Opportunities

Leadership Worcester is a 10-month civic leadership program with 25 participants from all different sectors. We provide a deep dive into the important issues our City is working on in order to inform and prepare our future CEOs, nonprofit leaders, board members and community activists. This program is highly competitive and participants graduate and join a meaningful network of influential young professionals and local leaders. Sessions are designed by community partners and involve influential leaders and changemakers from within each sector. Your company can get in front of this group and support the Chamber's effort to move the region forward by participating as a sponsor.

Our full-day session topics include: K-12 Education, Economic Development, Government, Urban Sustainability, Safety, Arts & Culture, Health, and Food Insecurity. All 2020-2021 sessions are planned for in person sessions and have a remote agenda back up.
